Description

This 5-bedroom villa is an excellent choice for a family looking for generous interior space, practical layout and modern comfort in a well-balanced home. The property offers 400 sqm of usable space and 480 sqm built area, arranged on ground floor, first floor and attic, creating a functional setting for both everyday living and quality family time.

Situated in one of Bucharest's the most sought after residential areas

Inside, the villa features 5 bedrooms, a spacious living area with dining space, an open-space fitted kitchen, 4 bathrooms, 3 balconies, a technical room and a large attic area complemented by a separate room and an additional toilet. The double garage and the efficient layout add even more value for families seeking comfort, privacy and flexibility.

An important advantage of the property is the presence of solar panels, which support a more energy-efficient lifestyle and can help optimize monthly electricity costs. In addition, the fact that the villa was renovated in 2026 adds a strong sense of freshness, comfort and long-term appeal.

Outside, the home benefits from a beautifully arranged 500 sqm private garden and a covered terrace, creating a pleasant setting for outdoor relaxation, family time and entertaining guests.

Its position directly opposite British School, as well as the proximity to Băneasa Zoo and other international schools, adds strong everyday convenience for families who value easy access to key lifestyle and education points in the northern area.
