Description

This fully renovated detached house combines the character of a solid brick construction with the comfort and efficiency of a modernized family home. The property offers 154 sqm of usable space on a 132 sqm plot, with a practical layout designed for comfortable everyday living.

Metro, schools and shops within a short walking distance

The ground floor features a generous and bright living area with a dining space, a well-organized kitchen, one bathroom and a versatile bedroom. This bedroom can also serve as a home office, guest bedroom, nanny's bedroom or accommodation for parents. The upper floor includes three spacious bedrooms and one bathroom, creating a private and comfortable sleeping area.

The basement provides a dedicated laundry and drying area, a wine cellar, a technical room and multiple storage spaces. Marble finishes in the hallways and staircase add a refined architectural detail, complemented by parquet flooring, PVC windows and wooden interior doors.

The renovation included upgraded installations, triple-glazed windows, 10 cm exterior insulation, mineral wool attic insulation and a recently replaced metal roof. A private central heating system, radiators, air conditioning, video intercom and a security entrance door support year-round comfort.

Outside, an approximately 10 sqm terrace provides a welcoming setting for morning coffee or relaxed evenings. The private courtyard and concrete fence offer additional privacy, while two outdoor parking spaces complete the property.

Grivița metro station is approximately a 3-minute walk away, while public transport, schools, kindergartens, high schools, a local market and shops are all easily accessible. The location also provides convenient connections to the city centre, Herăstrău Park, the Arch of Triumph and the main business districts in northern Bucharest.
