Description

BLISS Imobiliare presents a studio apartment with a terrace and its own yard in Greenfield.

Near Jolie Ville, International schools, Baneasa Mall and forest

The garden with an area of 19 square meters, which could only be used when the weather permitted, was transformed into a beautiful closed terrace that can be used all year round. We have both a cooling system for hot summers and a heating system.

The metal structure of the terrace is completed by an automated retractable roof. The side windows are also automated and can be opened completely.

The floor was covered with decking and thus harmoniously completed the space. The furniture came to complement them and we completed the project.

Inside, we have a usable area of 35 square meters as follows: living room with open kitchen, hall and bathroom. The interior was arranged and furnished modernly, in warm tones.

The space is sold fully furnished and equipped as shown in the pictures.

In the exterior parking lot, there is a parking space in the property.

What you should know about Greenfield if you don't already live here or are unfamiliar with the location:

This brings residents a new standard of comfort, by including all the functionality needed for a large community:
