Description

Masterful design and modern luxury are uniquely embodied in this 5 to 7 bedroom and 5 baths villa. Large outside terrace overlooking the green garden with beautiful trees and offering maximum privacy.

High end spacious villa over 4 levels with 5 bedrooms

The villa, completed in 2005, was built using very durable materials of superior quality.

The land has a 1.200 sqm surface with the footprint of 210 sqm and an outside covered terrace of 55 sqm.

The villa has a generous living room, with wood-burning fireplace, closed kitchen with floor heating and 5 bedrooms - one at the ground floor and 4 on the first floor.

The attic is an open space of 140 sqm, 4.5 in height: with an office area, children's playground, home cinema and a bathroom with shower and sauna.

There are 5 toilets, one on the ground floor, 3 upstairs and one at the attic. The villa also has a semi-basement, that can be used as a wine cellar, with storage area, technical room and a laundry room. Quality teak wood flooring used in all the rooms, including on the interior staircase, insulated Pizzolon windows from Meranti wood.

A garage of 35 sqm with a 3.5 m height completes this dream of a villa. Home to everybody who can enjoy and afford quality.

The exterior and interior of the villa has been designed by architect Mario Kuibush.
