### Description

2 bedroom apartment overlooking Baneasa forest.

## Close to kindergartens and international schools

The magnificent unique view offered by the apartment is due both to the orientation towards the Baneasa forest and to the floor on which it is located.

The apartment consists of living room with open-space kitchen, 2 bedrooms, 2 bathrooms, hall and 2 balconies. The terrace towards the forest, stretched along the living room, has an area of 17 sqm which, together with the 2 sqm of the balcony of the second bedroom, adds to the usable area of 101 sqm of the apartment.

Due to the state of the neighboring properties and the way in which it is arranged, the risk of erecting a building of any kind that would affect the current view towards the forest is zero.

The apartment also has an underground parking place.
