### Description

Modern fully furnished and equipped one bedroom apartment in the popular Cosmopolis complex North of Bucharest.

## Public transport to the city of Bucharest provided every 30 minutes

The layout of the apartment is as follows: living room with open space kitchen, furniture in very good condition, one bedroom, bathroom with shower, private central heating system and generous balcony. One above the ground parking is reserved for this apartment.

The residential complex has many common facilities including 5 outdoor swimming pools. Included is free access for three people to any of the 5 pools of the complex and free access to the bus transport system of the complex.

The apartment, situated on the third floor, overlooks one of these pools. The transport to Bucharest can be done by the buses provided by the complex, which leave the complex every 30 minutes. See the 2021 schedule in the picture gallery.

The Cosmopolis residential complex started from the vision of the developer Opus Land Development, to create in Bucharest, a residential complex that would include all the characteristics of a Western European city. Thus, in 2007, the residential complex of today began to take shape, emblematic for its unique design with blue-turquoise roofs, whose over 8,000 inhabitants enjoy all the advantages of life in a large capital, but in maximum safety, comfort and tranquility, and surrounded by green spaces.

The Cosmopolis complex offers its inhabitants a series of facilities in a unique mix in Bucharest: parks and playgrounds, private beach on the nearby natural lake 7 outdoor pools, perfect for hot summer days and evenings, sports facilities and outdoor recreation such as football and tennis courts, outdoor fitness equipment, ping pong tables and alleys specially designed for jogging.

Also in Cosmopolis and also for the comfort of its inhabitants, a strip mall of over 4,500sqm was opened for the first time in Romania. Cosmopolis Plaza includes a supermarket, ATM, pharmacy, cafes and restaurant, traditional and international delicatessens, bakery, wine cellar, vet's office, beauty salon, solarium, dry cleaning and tailoring.

The inhabitants of Cosmopolis find close to the house, also inside the complex, a private kindergarten, an elementary school and an art center for children. Soon, in partnership with the project developer, Opus Land Development, Stefanesti City Hall will open a public school.

Public transport to the city is provided by dedicated buses and minibuses, which run regularly to Aurel Vlaicu and Pipera subway stations and on weekends at Baneasa Mall.

In the Cosmopolis residential complex the access is controlled and the security provided by BGS is 24/24.

The range of houses in the complex is extremely varied: studio apartments, 2-room apartments, 3-room apartments and attached villas (townhouses) or individual. Prices within the Cosmopolis Residential District vary depending on the floor and the type of building, the utilities and finishes being included in the price. All the buildings within the Cosmopolis residential complex are new, built with the best quality materials, the seismic risk being zero.

Cosmpolis provides its customers with an "after-sales" service that provides support in administrative matters.

The Cosmopolis residential complex is currently considered, due to all the characteristics, advantages and benefits offered, the most prolific and appreciated Romanian real estate project, which is also certified by the multitude of national and international awards in the industry.

Property details
